

Project Title	Funding	Institution
A large scale, two phase study to estimate prevalence, and raise awareness, about autism spectrum conditions in India	\$60,000	Action for Autism/Creating Connections
An investigation of neuropsychological endophenotypes in autism and fragile X	\$73,563	University of North Carolina at Chapel Hill
ARTI: The autism research & training initiative in India	\$60,000	Sangath
Assessment core - 1	\$568,687	Yale University
Assessment core -2	\$377,086	University of Illinois at Chicago
A study of autism	\$217,402	University of Pennsylvania
A twin study of autism spectrum disorder	\$354,307	University of Wisconsin - Madison
Audiovisual speech integration in children with ASD	\$81,411	Haskins Laboratories, Inc.
Auditory mechanisms of social engagement	\$292,876	Yale University
Autism and the development of relational awareness	\$601,253	University of British Columbia
Autism spectrum disorder in Down syndrome: A model of repetitive and stereotypic behavior for idiopathic ASD	\$60,000	Kennedy Krieger Institute
Autistic traits: Life course & genetic structure	\$540,190	Washington University in St. Louis
Baby sibs	\$11,086	Autism Speaks
Behavioral and sensory evaluation of auditory discrimination in autism	\$147,275	University of Massachusetts Medical School
Behavioral pilot for an imaging study of social attention deficits in autism	\$171,000	Washington University in St. Louis
Biobehavioral analysis of self-injury & pain	\$310,475	University of Minnesota
Clinical phenotype: Recruitment and assesment core	\$415,472	University of California, San Diego
Core--clinical research and assessment	\$524,081	Vanderbilt University
Developmental processes, trajectories, and outcomes in autism	\$278,814	Yale University
Development of face processing expertise in children	\$238,263	University of California, San Diego
Development of intermodal perception of social events: Infancy to childhood	\$333,050	Florida International University
Early identification of autism: A prospective study	\$546,818	University of Pittsburgh
Early language development within the autism spectrum	\$459,749	University of Wisconsin - Madison
Electrophysiological signatures of language impairment in autism spectrum disorder	\$349,288	Children's Hospital of Philadelphia
Evaluation of behavior problems in children with ASD	\$30,025	Center for Autism and Related Disorders
Evaluation of diagostic and services practices in autism	\$167,723	University of California, San Diego
Expressive and receptive prosody in autism	\$544,113	Oregon Health & Science University
Eye-tracking studies of social engagement	\$307,538	Yale University
Gaze perception abnormalities in infants with ASD	\$307,393	Yale University
Interactions between mothers and young children with ASD: Associations with maternal and child characteristics	\$61,000	University of Haifa
KZN autism study	\$60,000	University of KwaZulu-Natal
Language development and outcome in children with autism	\$321,144	University of Connecticut

Project Title	Funding	Institution
Longitudinal studies of autism spectrum disorders: 2 to 23	\$504,261	University of Michigan
Motivation, self-monitoring, & family process in autism	\$304,247	University of Miami
Multimodal analyses of face processing in autism & Down syndrome	\$152,927	University of Massachusetts Medical School
Neural correlates of eye gaze processing in fragile X syndrome and autism spectrum	\$78,000	University of Washington
Nonlinguistic vocalizations in autism: Acoustic cry analysis in early infancy	\$73,329	Women And Infants Hospital-Rhode Island
Novel data capture and assessment technology for behavior disorders	\$539,334	Emerge Medical Technologies, LLC
Pilot project to assess web-based family recruitment for autism genetics studies	\$998,654	University of California, Los Angeles; Washington University in St. Louis; Kennedy Krieger Institute
Pragmatic skills of young males and females with fragile X syndrome	\$517,218	University of North Carolina at Chapel Hill
Pre- and postnatal neurobehavioral profiles in infants at risk for autism	\$73,350	Women And Infants Hospital-Rhode Island
Precursors of theory of mind in young children with autism	\$79,184	Carnegie Mellon University
Predicting outcome at age 5 of younger siblings of children with ASD	\$40,662	Vanderbilt University
Prospective study of infants at high risk for autism	\$278,814	Yale University
Psychometric evaluation of the autism symptom diagnostic scale	\$8,975	Center for Autism and Related Disorders
Psychometric evaluation of the behavior problems inventory in ASD	\$25,032	Center for Autism and Related Disorders
Psychometric evaluation of the QABF in children with ASD	\$11,069	Center for Autism and Related Disorders
Quality of life for children with autism spectrum disorders and their parents	\$150,000	Massachusetts General Hospital
Reward system in autism	\$217,013	Kennedy Krieger Institute
Sensory experiences in children with autism	\$456,368	University of North Carolina at Chapel Hill
Social-affective bases of word learning in fragile X syndrome and autism	\$569,575	University of Wisconsin - Madison
Social communication phenotype of ASD in the second year	\$251,888	Florida State University
Social-emotional development of infants at risk for autism spectrum	\$620,838	Vanderbilt University
Studies of prosody...autistic spectrum disorders - 1	\$30,043	Yale University
Studies of prosody...autistic spectrum disorders - 2	\$76,866	Southern Connecticut State University
Studies of social communication in speakers with autism spectrum disorder	\$278,809	Yale University
Subject assessment and recruitment core	\$914,051	University of Pittsburgh
The development of joint attention after infancy	\$307,063	Georgia State University
The development of the siblings of children with autism: A longitudinal study	\$353,056	University of California, Los Angeles
The diagnostic and assessment core	\$300,158	University of California, Los Angeles
The epidemiology of autism in a low birthweight cohort	\$318,011	University of Pennsylvania
The ontogeny of social visual engagement in infants at risk for autism	\$580,150	Yale University
Visual processing and later cognitive effects in infants with fragile X syndrome	\$249,958	University of California, Davis
